

3rd Annual Conference
Energy and Sustainability 2009
August 9th – 12th Newark, DE USA

Dear Friends and Colleagues,

You are cordially invited to participate in the 3rd annual conference “Energy and Sustainability 2009” to be held at the University of Delaware in Newark, DE from August 9th to 12th, 2009.

The conference aims to offer the opportunity for people from many backgrounds to come together and share and learn about current topics in energy and sustainability. We hope to piece together an exciting arrangement of both technical and non-technical talks, poster presentations, networking sessions and of course an impressive and diverse line-up of guest speakers and panel discussions. Current guest speakers include the following:

John Byrne

Director, Center for Energy & Environmental Policy and Distinguished Professor of Energy & Climate Policy
on Climate Change and Public Policy

Mitchell Joachim

Co-founder of Terreform 1 and renowned visionary architect specializing in the ecology of urban design
on Green Architecture and Urban Planning

Chris Paine

Writer and director of the 2006 documentary film “Who Killed the Electric Car”
on Documentary Film and Electric Vehicles

Gia Schneider

Partner, EKO Asset Management Partners - investing in the maintenance, creation, and restoration of functioning ecosystems
on The Economics of Climate Change

Aldo Steinfeld

Head of the Solar Technology Laboratory at PSI, Professor of Renewable Energy Carriers at ETH, Zurich, and Editor of ASME Journal of Solar Energy Engineering
on Solar Fuels and Materials

Larry Kazmerski

Director of the National Center for Photovoltaics, NREL
on Photovoltaics for the 21st Century

Willett Kempton

Director of the Center for Carbon-free Power Integration
on Re-thinking the Analysis of our Energy System

Please visit the conference website to register and for more information. The registration deadline is June 30.
